CONTENTS OF VOLUME 28

Number 1 (February 2004)

Editorial	1	Editors' introduction *D Pitt and N Levine*
Papers	5	Termination-discriminatory pricing, subscriber bandwagons, and network traffic patterns: the Taiwanese mobile phone market *W W Fu*
	23	Mobile handset subsidy policy in Korea: historical analysis and evaluation *H-j Kim, S-k Byun and M-c Park*
	43	Internet use via mobile phone in Japan *K Ishii*
	59	Regulatory reform and performance in telecommunications: unrealized potential in the MENA countries *A Varoudakis and C M Rossotto*
	79	Canada, South Korea, Netherlands and Sweden: regulatory implications of the convergence of telecommunications, broadcasting and Internet services *I Wu*
Book review	97	Managing internet driven change in international telecommunications *A Rossi-Balita*

Number 2 (March 2004)

Editorial	101	Special Issue on Growth in Mobile Communications *E Bohlin, S L Levin and N Sung*
Papers	107	Patterns in global fixed and mobile telecommunications development: a cluster analysis *A Banerjee and A J Ros*
	133	A dynamic model of mobile telephony subscription incorporating a network effect *G Madden, G Coble-Neal and B Dalzell*
	145	The effects of customer satisfaction and switching barrier on customer loyalty in Korean mobile telecommunication services *M-K Kim, M-C Park and D-H Jeong*
	161	Flagship firms, consolidation and changing market structures within the mobile communications market *J Whalley*

177 Mobile network evolution toward IMT-2000 in Korea: a techno-economic analysis
H-Y Park and S-G Chang

197 Economic versus technical approaches to frequency management
M Falch and R Tadayoni

213 3G licensing in Hong Kong: The debate
X Yan

Numbers 3–4 (April/May 2004)

Editorial 227 Universal service and the future of regulation
D Pitt and N Levine

Papers 233 Universal service issues in converging communications environments: the case of the UK
S Simpson

249 Regulating the BBC
M Cave, R Collins and P Crowther

273 Regulatory forbearance: why did Oftel find it so hard?
J Stern

295 Special tariffs to promote fixed telephony penetration: reflections from the UK experience during the 1990s
L Grilli

309 Universal access: what have we learned from the E-rate?
H.E Hudson

323 Public internet access revisited
L Simpson, L Daws and B Pini

339 Universal service: beyond established practice to possibility space
K.P Jayakar and H Sawhney

Numbers 5–6 (June/July 2004)

Editorial 359 *D Pitt*

Papers 363 A progressive analysis of Internet market: from best effort to quality of service
S Shin, M B H Weiss and H Correa

391 Come the revolution—network dimensioning, service costing and pricing in a packet switched environment
G Davies, M Hardt and F Kelly

413 Local telephone quality-of-service: a framework and empirical evidence
M E Clements

	427	The diffusion of cellular phones in Portugal *A Botelho and L C Pinto*
	439	Wireless diffusion and mobile computing: implications for the digital divide *J Wareham, A Levy and W Shi*
Announcement	459	Global communications strategy forum 2004

Numbers 7–8 (August/September 2004)

Editorial	461	A selection of papers from the 31st Annual Telecommunications Policy Research Conference *R Cannon and A Hoag*
Papers	465	Beyond community networking and CTCs: access, development, and public policy *S Strover, G Chapman and J Waters*
	487	The post-.COM internet: toward regular and objective procedures for internet governance *M L Mueller and L W McKnight*
	503	Understanding the broadcast flag: a threat analysis model *A Friedman, R Baliga, D Dasgupta and A Dreyer*
	523	Assessing pain below a regulatory outage reporting threshold *A.P Snow*
	537	Local government broadband initiatives *S.E Gillett, W H Lehr and C Osorio*
	559	Can broadband over powerline carrier (PLC) compete? A techno-economic analysis *R Tongia*
	579	An initial assessment of cooperative action in Wi-Fi networking *C Sandvig*
	603	Real-time secondary markets for spectrum *J M Peha and S Panichpapiboon*
	619	An analysis of security vulnerabilities in the movie production and distribution process *S Byers, L.F Cranor, E Cronin, D Korman and P McDaniel*

Numbers 9–10 (October/November 2004)

Editorial	645	*D Pitt and N Levine*
Papers	649	Competitive advantage of broadband Internet: a comparative study between South Korea and the United States *C Lee and S M Chan-Olmsted*

679 Revising Taiwan's frequency usage fee regulation
H-C Yu, Z-Y Lee and H-Y Lee

697 Telecommunications reforms in China: towards an analytical framework
B P Y Loo

715 Market performance of Chinese telecommunications: new regulatory policies
L Yu, S Berg and Q Guo

733 Bridging telecommunications service: its concept and related management strategy
J-H Ahn, K C Cha, D B Jun and M H Park

751 Determinants of subscriber churn and customer loyalty in the Korean mobile telephony market
H-S Kim and C-H Yoon

Number 11 (December 2004)

Editorial 767 *D Pitt and N Levine*

Papers 771 Telephone number distribution: a snapshot at the beginning of 2000
J Eisner, C Stroup and J Zolnierek

785 Telecommunications in the land of the Thunder Dragon: recent developments in Bhutan
Kezang and J Whalley

801 On the design of performance measurement plans in the telecommunications industry
L Wood and D M Sappington

821 Misuse of the 'modified' *t* statistic in regulatory telecommunications
J D Opdyke
